Technical Skills

Frontend Development	Next.js, React.js, Redux, TypeScript, JavaScript, Angular, HTML5, CSS3 — established architecture patterns, accessibility guidelines, performance benchmarks
Backend Development	Node.js, Express.js, Java, Spring, Hibernate — designed scalable APIs and microservices
Testing Frameworks	Jest, React Testing Library, Enzyme, Mocha, Playwright, Postman API Testing and Automation — drove adoption of automated testing and TDD
Code Quality & Security	SonarQube, ESLint, Apigee, Webpack, Git, Fortify, Veracode — enforced coding standards, vulnerability fixes, penetration testing
Monitoring & Observability	Datadog, Splunk — audited production systems, identified technical debt, improved reliability
CI/CD & DevOps Tools	Vercel, Bamboo, Jenkins, Azure DevOps, AWS, Docker — streamlined pipelines, reduced deployment times
Databases	MongoDB, MySQL, PostgreSQL, SQLite — optimized queries and caching strategies
Design & Collaboration	Figma — collaborated with product/design stakeholders, influenced UX decisions
Additional Expertise	System Design, GraphQL, Production Support, Penetration Testing — led architecture decisions, mentored engineers, drove reusable component adoption

Work Experience

Wipro Limited

Technical Lead

Gurugram, Haryana

11 May 2022 – Present

- 13+ years of full-stack JavaScript expertise, leading teams of 15 engineers, establishing front-end technical standards, and streamlining CI/CD pipelines to cut deployment times by 60%.
- Architected scalable front-end systems, defining microservice patterns, caching strategies, accessibility guidelines, performance benchmarks, and security best practices to deliver high-quality customer experiences.
- Audited production systems (checkout flows, order tracking, etc.), identified technical debt and architectural gaps, and executed roadmaps that improved maintainability, scalability, and reliability.
- Championed reusable components and modular coding standards, enforcing branch policies, automated testing, and CI/CD adoption—boosting consistency, reuse, and accelerating development velocity across teams.
- Delivered two major projects on time, driving a 35% uplift in sales and securing follow-on opportunities by balancing short-term delivery with long-term scalability.
- Owned complete product lifecycle – UI/UX design, API integration, unit testing, CI/CD setup, deployment, and production support, while mentoring engineers to elevate code quality, collaboration, and efficiency.
- Mentored and coached engineers across teams, conducting code reviews, providing technical guidance, and facilitating end-to-end interviews, skills assessments, and resource mapping to optimize team utilization.
- Collaborated with product and design stakeholders, influencing UX decisions, advocating customer experience improvements, and ensuring technical feasibility of proposed solutions.
- Stayed hands-on with code, focusing on critical path implementations, component interfaces, prototypes, and architectural refactors that set examples for the broader team.
